

CUTTING EDGES

SNOW PLOW POLYURETHANE BLADES

The polyurethane blade will absorb the shock produced by impact and will not crack the cast iron and concrete structures. Protect your manhole covers, valve boxes, curbs, markings, reflectors and cobblestones.

Argonics cutting edges are manufactured with the same Kryptane® polyurethane that has been used in the mining industry for the past 25 years. It is engineered to handle extremely harsh environments, and snow and ice are no match for it!

BENEFITS

- ✱ Designed to withstand the harshest winters
- ✱ Polyurethane outlasts rubber 3-5 times, reducing truck downtime
- ✱ Reversible blade doubles the wear life
- ✱ Noise reduction for both residential areas and the driver
- ✱ Absorbs shock, creating less wear and tear on vehicle and less driver fatigue

USE ON:

- ✱ Truck blades
- ✱ Box plows
- ✱ Dozer blades
- ✱ ATV/UTV blades
- ✱ Tractor blades

Maximum speed of 35/mph

All Argonics products are
proudly made in the USA.
